Guide to our regular plant sizes

Quality plants and bulbs delivered straight to your door at just the right time for planting.

Continued investment in quality management and packaging means that our quality control process is better than ever. Plants are double and triple checked before they get sent out to you. They also spend less time in the post. With our new packaging, many of our plant parcels can fit straight through your letter box.

A. Garden Ready Plants are supplied differently to those found in garden centres. And for good reason. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.

B. Jumbo Plugs Jumbo plugs can be planted straight into baskets or other containers. 5-11cm.

More information and pack sizes can be found on our website.

C. Postiplants We've re-designed our most popular plug size so that our plant parcels will fit through most letter boxes. 5-9cm.

D. Plugs With our exclusive to T&M cartridge plug systemTM, each young plant has an extra-strong root system. 3-6cm. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

E. Bulbs We always supply first year flowering-size bulbs.

F. Bare roots These are sent in a dormant state without pot or compost. Planted in spring, they produce new growth through the year. Size 1 is the highest spec available irrespective of plant variety or size.

G. Potted plants These well-established plants are ready to be planted straight out into final positions, as long as the weather allows. Sizes given are usually the diameter of the pot.

Our Garden Ready Plants make gardening as simple as...

1. OPEN

Open as soon as they arrive and check them over. We want your plants to arrive in tip-top condition so that they've got the best chance of success.

Be sure to read and follow the enclosed planting instructions!

2. PLANT

Plant your garden ready plants straight into the garden, containers, or baskets. They'll be delivered to your door ready

to plant out, as we've done the crucial early growing for you.

3. WATER

Water your plants! Water when they arrive, then again when you plant them out into their final positions - don't allow them to dry out!

Growing on your plants:

If you're new to buying young plants, you might think you'll need a greenhouse or flashy equipment to grow them on, when all you really need is a few pots and a warm windowsill - you'll find

everything you need throughout the catalogue.

The importance of early ordering...

Some of our brand new and exclusive varieties are only available in limited quantities and sell out fast, so early ordering helps to secure the plants that you want. But more importantly, our technical trials prove that plants sent out earlier in the year end up bigger than those from later deliveries - they produce better foliage and fuller plants that subsequently give you 50% more flowers.

New Arrivals for 2024

Showcasing the best new bedding plants for a summer of sizzling colour in the garden

Summertime in the garden is all about showing off vibrant colour and seasonal floral displays with the use of sizzling summer bedding varieties. We offer the widest range of traditional favourites alongside brand new bedding plants, and have several new garden gems to add to your planting palette this summer.

Antirrhinums (snap dragons) are a traditional favourite, loved by generations of gardeners. We're bringing a modern twist with the introduction of **Antirrhinum 'Sweet Duet Series'**. New breeding has led to large, double flowers on shorter compact plants with the added bonus of intense fragrance, all in a delicious mix of fruity colours

from salmon and peach to deep red and apple blossom pink. Perfect for front-of-border planting unlike their taller traditional counterparts, their compact habit also lends perfectly to patio containers where you can really get up close to the colour and fragrance. Added to our popular Garden Ready range for immediate planting on arrival, they couldn't be easier to grow!

Tropical looking zinnias are more commonly offered as seed, but we're pleased to do the early work for you with the launch of **Zinnia 'Profusion Mixed'** in our summer plug plant range. We're confident this remarkable colour mix is the best bedding zinnia on the market. The stunning colour mix features

outstanding garden performance and a prolific flowering ability that really lives up to its name. Plants are robust and compact with strong basal branching and a self-cleaning growth habit, continuously producing masses of daisy-like blooms up to 5cm across in a mixture of red, cherry, orange and white. Easy to grow on from our plug plants, we've also made them available for immediate planting in our Garden Ready format too.

Daisy-like blooms up to 5cm across

African daisies represent some of the longest flowering among the summer bedders, taking your garden colour from June right through to November. New **Osteospermum Akila 'Berries & Cream Mix'** will give you summer colour to the first hard frosts of autumn with a calming, harmonious colour mix of pinks, purples, mauves and white. It's a really versatile variety in the garden, with compact growth lending well to border plantings, path edging, rockery displays and patio containers. Supplied garden ready, it couldn't be simpler to add them to your displays this summer.

Gives a full season of stunning cascading colour

- GRAFTED - VEG PLANTS

Giving you up to a massive 75% increase in yields

1
Easy to grow!

**Pick n Mix Grafted Veg
3 or more 9cm pots for £5 per pot**

Pages 70-71 and online www.thompson-morgan.com/grafted-veg-offer

BENEFITS

- **Longer cropping season** - plants fruit earlier in spring and crop later into autumn
- **Extra strong root system** allows plants to be grown outside - no need for a greenhouse!
- **Better tolerance to soil pests and diseases** - no need for growbags - plant straight into the ground.

This all-natural process of joining a fruiting variety to a more vigorous rootstock brings the goodness of grafted vegetables to your own pots and plots. We've selected rootstocks to bring you the best possible results.
