Covered in blooms
for five months!

Guide to our regular plant sizes

Quality plants and bulbs delivered straight to your door at just the right time for planting.

Continued investment in quality management and packaging means that our quality control process is better than ever. Plants are double and triple checked before they get sent out to you. They also spend less time in the post. With our new packaging, many of our plant parcels can fit straight through your letter box.

A. Garden Ready Plants are supplied differently to those found in garden centres. And for good reason. Retailers need their plants to catch your eye on the shelf; we simply want ours to perform at their best! So we send them out at the perfect time for planting, usually before blooms form, for quicker establishment, better root growth and flowering, and a longer, stronger display. 10-15cm.

B. Jumbo Plugs Jumbo plugs can be planted straight into baskets or other containers. 5-11cm.

More information and pack sizes can be found on our website.

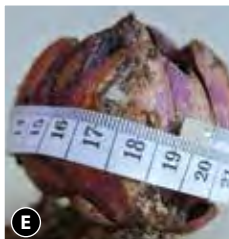

C. Postiplants We've re-designed our most popular plug size so that our plant parcels will fit through most letter boxes. 5-9cm.

D. Plugs With our exclusive to T&M cartridge plug systemTM, each young plant has an extra-strong root system. 3-6cm. The open sided cartridge causes root tips to dehydrate. This is known as 'air-pruning' which encourages the growth of new, lateral fibrous roots.

E. Bulbs We always supply first year flowering-size bulbs.

F. Bare roots These are sent in a dormant state without pot or compost. Planted in spring, they produce new growth through the year. Size 1 is the highest spec available irrespective of plant variety or size.

G. Potted plants These well-established plants are ready to be planted straight out into final positions, as long as the weather allows. Sizes given are usually the diameter of the pot.

PLANTS FOR POLLINATORS
Wild bees and other pollinators are in decline. The Plants for Pollinators logo easily helps to identify plants that encourage them back into the garden

AWARD OF GARDEN MERIT
This plant/cultivar has been awarded the RHS Award of Garden Merit because it has performed well in trials and is proven to be a reliable specimen in appropriate conditions

Edible Some parts of this plant are edible, please see online for more details

**Our Garden Ready Plants
make gardening as simple
as...**

1. OPEN

Open as soon as they arrive and check them over. We want your plants to arrive in tip-top condition so that they've got the best chance of success. Be sure to read and follow the enclosed planting instructions!

2. PLANT

Plant your garden ready plants straight into the garden, containers, or baskets. They'll be delivered to your door ready

to plant out, as we've done the crucial early growing for you.

3. WATER

Water your plants! Water when they arrive, then again when you plant them out into their final positions - don't allow them to dry out!

Growing on your plants:

If you're new to buying young plants, you might think you'll need a greenhouse or flashy equipment to grow them on, when all you really need is a few pots and a warm windowsill - you'll find

everything you need through-out the catalogue.

The importance of early ordering...

Some of our brand new and exclusive varieties are only available in limited quantities and sell out fast, so early ordering helps to secure the plants that you want. But more importantly, our technical trials prove that plants sent out earlier in the year end up bigger than those from later deliveries - they produce better foliage and fuller plants that subsequently give you 50% more flowers.

New Arrivals for 2024

Showcasing the best new varieties for your garden

It's getting harder to predict the summer weather but you can guarantee a garden full of sizzling colour with the addition of our latest introductions to your planting plans this summer.

You can expect a long season of hot yellow flowers from our breakthrough Petunia 'Caliburst Petchoa Yellow'. This unique crossing takes the vibrancy of calibrachoa blooms, mixing it with the intense flower power of petunias. Compact plants carry the bloom-size, flower quantity and manageable, bushy habit of petunias, making a fantastic addition to baskets and mixed containers,

bringing a burst sunshine yellow to the garden from spring until autumn.

We're bringing the blousy double blooms of dahlias out of the border and onto the patio with the launch of the Dahlia 'Double Dreamy Collection'. These compact bushy plants are ideal for pots and troughs in a range of classic dahlias colours all with attention-stealing double blooms. Rich bronzed foliage adds contrast to the blooms and standard green foliage plants. As with all dahlias, they'll last to the first hard frosts of autumn for months of easy colour in your displays.

For something a little different you'll want to add Cuphea 'Sweet Talk Collection' to your order form. These easy-care summer bedders offer unusual orchid-like blooms in a range of striking colours sitting atop crinkled, textured foliage. These drought tolerant additions require little maintenance through the season - old flowers are replaced with new with no need for deadheading, leading to an easy summer of care-free gardening out in the garden border or in your patio displays.

A range of striking colours

With all that colour its good to add something for contrast. Why not break up your displays with the architectural foliage of our Mangave Trio - 'Blazing Saddles', 'Frosted Elegance' and 'Praying Hands'? These trend setting succulents all offer unique foliage shades and growth habits, adding a stylish design element and really striking a pose on the patio.

- GRAFTED - VEG PLANTS

Giving you up to a massive 75% increase in yields

1
Easy to grow!

**Pick n Mix Grafted Veg
3 or more 9cm pots for £5 per pot**

Pages 68-71 and online www.thompson-morgan.com/grafted-veg-offer

BENEFITS

- **Longer cropping season** - plants fruit earlier in spring and crop later into autumn
- **Extra strong root system** allows plants to be grown outside - no need for a greenhouse!
- **Better tolerance to soil pests and diseases** - no need for growbags - plant straight into the ground.

This all-natural process of joining a fruiting variety to a more vigorous rootstock brings the goodness of grafted vegetables to your own pots and plots. We've selected rootstocks to bring you the best possible results.
